Please do not include the Juneau Road/Ferry Project in the State Transportation Improvement Plan.

The program has been studied for decades with one result. It is not an appropriate use of public funds.

Its construction and maintenance costs are not justified by benefits.

In fact, it will have a negative impact on regional transportation, directly removing our best source of economic, reliable year-round transport and redirecting needed transportation funds away from actual needs.

Thank you for your support.

Peter Goll
